Re: CC Docket No. 00-257

Dear Ms. Dortch:

This letter is written on behalf of PTI Pacifica Inc. ("PTI Pacifica") pursuant to Section 64.1120(e) of the Commission's rules, 47 C.F.R. § 64.1120(e), to notify the Commission that PTI Pacifica intends to acquire the long distance customer base of IT&E Overseas, Inc. in Guam and the Commonwealth of the Northern Mariana Islands ("CNMI") no earlier than 30 days from the date of this filing or the receipt of required FCC regulatory approvals, whichever comes later. A detailed description of the transaction is provided in the application filed in WC Docket No. 08-54 and IBFS File No. ITC-ASG-20080404-00164. The types of telecommunications services provided are domestic and international long distance services.

A copy of the certification of compliance and a copy of the notice sent to subscribers are attached. If you have any questions regarding this notification, please contact PTI Pacifica's undersigned counsel.

Respectfully submitted,

Kenneth D. Parrish
Timothy J. Cooney

CERTIFICATION

I, Larry Knecht, am Executive Vice President of PTI Pacifica Inc. and in accordance with Section 64.1120(e) of the Commission's rules, 47 C.F.R. § 64.1120(e), hereby certify under penalty of perjury that I have read the foregoing notification and the statements contained therein and that they are true, complete and correct to the best of my knowledge. I further certify that PTI Pacifica Inc. has complied with the Commission's requirements to provide advance customer notice in accordance with Section 64.1120(e)(3) of the FCC's rules, with the obligations specified in that notice, and with other statutory and Commission requirements that apply to this streamlined process.

Important Messages

Dear Valued Subscriber,

We are pleased to announce that this month we will complete the installation of our new state-of-the-art CDMA Network featuring Evolution Data Optimized (EV-DO).

Over the next month all IT&E wireless voice subscribers will be automatically transitioned to our new CDMA network without the need for any phone programming and registration. The transition will occur overnight with only limited interruption while our highly-trained technical team completes the transition. The transition date will be announced in the Pacific Daily News in advance.

Our new CDMA Network will provide you immediate improved call and voice quality and will result in fewer dropped calls. The transition will give IT&E customers the most advanced wireless voice and high speed mobile broadband EV-DO network in Guam, Saipan, Tinian, and Rota and will allow us to provide you enhanced service offerings such as BlackBerry Service and additional voice and data roaming to the United States, Philippines, and Japan and other destinations.

Should you experience any problems with your service on the transition date, you are kindly requested to please contact Customer Service at 922-4ITE (4483) or e-mail us at customer@itehq.net. Our Customer Service Representatives will be prepared to discuss any problem that you may encounter and assist you with a resolution as soon as possible.

Changes in Long Distance Service: In addition to our new wireless CDMA network we are also pleased to announce that we have agreed to acquire the long distance customers of IT&E Overseas, Inc. ("IT&E Overseas"). Accordingly, no sooner than 30 days from this date, PTI Pacifica Inc., doing business as IT&E, will become your long distance carrier.

Until the long distance switch-over, IT&E Overseas will continue to provide you with long distance service. We will work closely with IT&E Overseas to ensure this transition is as seamless as possible to you. You will NOT be assessed any fee for the change. Plans, rates, and service charges will continue without any change under your current subscription plan. Notice of any future changes in the services you receive or in the rates, terms and conditions of service will be provided as required under applicable law. You retain the right to switch long distance carriers, but if you do so after the switch-over you may incur additional charges. If you have arranged a preferred long distance carrier freeze through your local exchange carrier, such freeze will be removed in order to transition the switch-over; following the switch-over, you must contact your local carrier to reinstate the freeze.

We look forward to providing IT&E Overseas long distance customers with the most reliable, cost effective, and modern network. If you have any questions about this change or any concerns prior to the change, please do not hesitate to contact us at 1-877-402-4483 or 922-4ITE (4483).

We truly appreciate your loyalty and understanding during this upgrade. We can assure you that we will continue to invest in our network and work hard to provide you with world class service.
